

Model DD45
45" Downdraft Ventilation System

The cooktop downdraft unit rises from the countertop to whisk away odors and smoke into the easy-to-clean, five-layer mesh filter. The remote-mounted control module and top cover have the classic stainless steel finish. (I) models include an internal blower. In-line and remote blower options are available for (R) models.

Model DD45 shown. Also shown are two Model CT15G/S gas cooktops and Model IM15/S multi-function cooktop.
